Feel free to call us if you have any questions! +1 513-351-9919

Note:

Blaze software is used to assist in HVM100 meter setup, data download, and export of data. A CD to install the software is included at no charge with the KHVM-ACC line item. An installation key/ID is required for install which is printed on the CD face. Blaze software is compatible with all 32 bit versions of Windows XP, Vista, and 7, and 64-bit versions of Windows 7. Rental laptops are available with Blaze software preloaded, and meter setup and data download service is also available.

HVM100 Kit Selection Guide

394C06

Handheld Calibrator

_____ **394C06** 1 g RMS, 159.2 Hz handheld calibrator

Additional Cables

_____ **CBL120** Cable - 3x 10-32 male to HVM 4-pin LEMO, 5 ft length

_____ **CBL121** Cable - 3x BNC male to HVM 4-pin LEMO, 5 ft length

Additional Sensors

_____ **356B18/356M98** High Sensitivity 1000 mV/g triaxial sensor, 1/4-28 connector, 10-32 mounting

_____ **333B32** Modal Array uniaxial accelerometer, 100 mV/g, 10-32 electrical connector, adhesive mounting

_____ **User Selectable:** _____

Additional Software

_____ **SWW-DNA** Data Navigation and Analysis Software navigate through extensive data with measurement organization, reporting, and data post-processing tools
